

# Simpplr One™

The most comprehensive employee experience management platform

Simpplr One™ is a comprehensive Employee Experience Management (EXM) platform that delivers frictionless and personalized employee experiences at scale. It is the only solution that drives higher adoption, creates personalized experiences, and provides clear, actionable insights, delivering greater employee engagement and productivity.

A modern platform for today's workforce

Outdated systems, an overwhelming number of applications, and fragmented insights are the root causes of poor employee experience. Simpplr One is a unified employee experience management platform that brings everything employees need to excel into one place, enhancing productivity and engagement.

### AI-powered personalization

Personalization, extensive AI capabilities, along with consumer-grade UX, help drive unique individualized employee experiences for everyone.

### Unified platform

The only platform that provides one place for employees to connect with the people, information, and answers they need to thrive at work.

### Actionable insights

Get clear, unified insights to understand employee needs, make better decisions, and drive more engagement.

## The One EX platform that does it all

Simplr One creates personalized experiences and provides clear, actionable insights to deliver greater engagement and visibility.

### COMMUNICATE

#### Intranet

Bring everyone across your company together in one digital HQ.

#### Newsletter

Create and manage engaging newsletters with smart blocks for dynamic content, templating, and rich insights.

#### Video

Bring communications to life with built-in video creation, hosting, management, transcription, closed captions, tracking, and sharing.

### ENABLE

#### Intranet Search

Give employees an AI-powered search that lets them find information, answers, and people data across their apps in a single place.

#### Mobile

Make it easy for employees to access your Digital HQ while on the go with branded apps for iPhone, iPad, and Android.

#### Integrations

Streamline workflows, centralize knowledge, and simplify communication in a single platform with Simplr's out-of-the-box integrations and APIs.

### ENGAGE

#### AI Assistant

An AI-powered, conversational virtual concierge designed to address employees' work-related questions and issues instantly.

#### Employee Listening

Empower team managers and leaders with sentiment analysis, employee feedback, and dashboards, providing clear employee insights and actionable recommendations.

#### Analytics and Insights

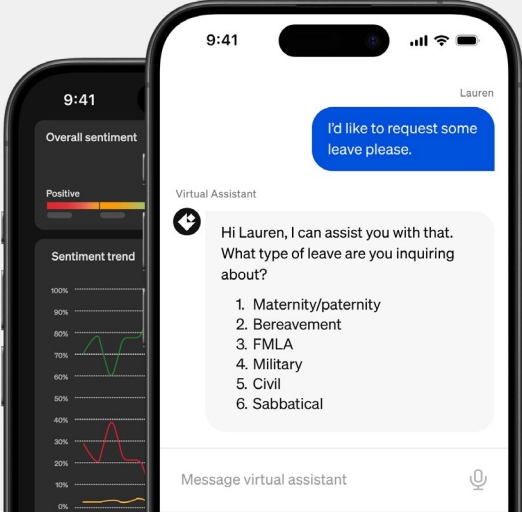

Get unified insights across your platform to understand employee needs, make better decisions, and drive more engagement.

Add-ons and upgrades are available with Surveys, Recognition and Rewards, AI Assistant, Enterprise Search, and Support.

## Powered by Simpplr EX:AI

Simpplr EX:AI understands the workforce the way you do. Our AI gets to know your company, employees, and policies to help enrich every aspect of an employee's experience. It takes into consideration employee interactions and evolves as they do.

The image shows two smartphones. The left phone displays a dashboard with 'Overall sentiment' (Positive) and a 'Sentiment trend' line graph. The right phone shows a chat interface where a user named Lauren asks for leave, and a 'Virtual Assistant' responds with a list of leave types: 1. Maternity/paternity, 2. Bereavement, 3. FMLA, 4. Military, 5. Civil, 6. Sabbatical.

## More than 200 out of the box integrations

A grid of ten logos representing various software integrations: Okta, Slack, Microsoft Teams, Google Drive, Confluence, ServiceNow, Workday, SAP, and UKG.

Helping over 1,000 global brands transform EX for 2M+ employees

Simplplr has illuminated the path, bringing a transformative shift in engagement and adoption. With a dynamic and personalized experience, our employees now share, connect and celebrate on “MoffittNet” like never before. Simplplr has become our ally in fostering a vibrant culture, allowing us to host impactful events, streamline crisis communications, and provide accessible training for our growing team.

It is absolutely critical that a company has some sort of internal tool or else you're not going to get people excited about your message. Simplplr solves that with its beautiful user interface. When people login to Simplplr, they see a platform that is inviting, engaging and easy to have a conversation.
